

## TWELVE INDICTED BY THE GRAND JURY

### Importation of Women Prevalent, Say Inquisitors

The Federal Grand Jury for the special February term made its first and final report this morning. Out of fourteen cases presented twelve indictments are returned, all but one of them against Japanese accused of violating the immigration laws in regard to the importation of women for immoral purposes. Two no true bills were returned. One Hawaiian, W. K. Apua, is indicted for failing to file the certificate of a marriage performed by him.

The report of the Grand Jury is brief. Special mention is made of the prevalence of the importation of women for immoral purposes and the efforts of the Department of Justice to root out this evil is commended, as is also the work of the United States District Attorney, R. W. Breckons.

Indictments—Mau Sing, perjury before the Grand Jury; Shige Yamamoto, violation of Edmunds Act with Fujikawa; Fujikawa, harboring a woman; Shige Yamamoto, for immoral purposes; Matsumoto and Yoshi Matsumoto, harboring Shige Yamamoto, for immoral purposes; W. K. Apua, failing to file a certificate of a marriage solemnized by him; Toyaburo Ono, harboring a woman, Sato Ono, for the purpose of prostitution; Sato Ono, adultery; Sakuya Tananashi, adultery; Naito, harboring a woman; Toki Naito, for the purpose of prostitution; Shigenatsu, harboring a woman; Umeko Shigenatsu, for the purpose of prostitution; Umeko Shigenatsu, adultery, two indictments.

## ARMY, NAVY AND MARINE CORPS

Under the escort of Company L, National Guard of Hawaii, of Lahaina, Cal., and headed by the Hawaiian band, Company D, of Hilo, in command of Captain Fetter, marched through the streets this forenoon to the Mauna Kea wharf, whence they boarded the steamer for Hilo.

The men from Hilo and Lahaina made a splendid appearance as they marched through the streets and were loudly applauded. As they boarded the steamer they were presented with flowers and leis.

Six of the Hilo men secured the permission of Captain Fetter to remain here until next week.

According to President Kennedy of the Inter-Island Company, the men will be permitted on the twin deck. On the trip back to Hilo the men will sing their new song, dedicated to Major Dunning of Fort Shafter.

As soon as the bow line of the Mauna Kea was cast off, the Hawaiian band played the famous "Ike hou ana i ka nani o Hilo," in honor of the Hilo men.

This afternoon at 5 o'clock the Lahaina men—Company E—will leave for their homes in the Heleae. Captain Keilinoi stated this morning that the men will be drilled frequently in the future to keep the company up to a high standard. This company was complimented by Major Dunning during the encampment.

Company I, of Wailuku, Captain Bai will leave in the Claudine, sailing on next Friday.

## FISHING PARTY HAD FINE SPORT AND HAUL

The yachts that started for Lanai on Friday evening stopped off Molokai, and finding the fish biting well, remained in that vicinity all the time. Fine weather was experienced during the run to Molokai, and the Hawaii made good time of the boat across.

A fine assortment of fish rewarded the yachtsmen, and no doubt all their friends will be recipients of a mess each. These fishing expeditions are becoming very popular and already another party of the disciples of Isaak Walton are talking of making a trip to either Lanai or Molokai.

## POLICE COURT JOTTING

There were no less than seventy cases on the Police Court calendar this morning. This bunch comprised the clean-up of Saturday, Sunday and Monday. Most of the offenses were against the gambling and booze laws.

Twenty Japanese were fined \$10 each for yielding to the seductions of pulkasi. They wooed the god of chance and the god of law hauled them in.

A bunch of boozers who celebrated the birthday of the father of their country well but not wisely got handed four dollar vouchers. It was a mixed crowd, Portuguese, Hawaiians, Irish men and Americans, all figured on the

## C. M. COOKE IS MUCH BETTER

A wireless telegram from Lihue this morning announced that C. M. Cooke is much better and his son Clarence Cooke is expected home of the regular steamer from Kauai.

This quieted a feeling of apprehension resulting from a very bad night that Mr. Cooke had on Friday. Shortly after the first evidence of the shock, he was in a condition that caused considerable alarm. He recovered from this and the fact that Clarence Cooke is coming to town is accepted as the best proof that the father is now believed to be on the sure road to speedy recovery.

list, which all goes to prove that the occasion was celebrated with great delight by all nationalities. Moanulua, a well known local character, who has a penchant for leis at all seasons, was one of the festive sports.

Nine juveniles, who, instead of attending the parade, had indulged in the fascinating game of "7-11," were all held for investigation.

Messrs. Powell, Brown, Ward and Wilson, who appear to occupy suites on the Inter-Island wharf—the first class hotels being crowded—were on a charge that reads like brooking and entering, but which under the law is considered vagrancy. The four gentlemen denied that they were sailors, but Judge Andrade seemed to impress them with the fact that a life on the billows was a bit better than one on the reef. The four men were given a chance to ship out of the country.

Several cases were remanded till tomorrow and the next day.

## WAILUKU SUGAR CO. EXPECTS BIG CROP

(Continued from Page 1)

balance of the new land at Maalea Bay, and new lands in Waikapu Valley, and at Waihee, were taken in for this crop, and a sufficient area has been planted on the three divisions, that under favorable conditions, should yield 16,000 tons of sugar.

Crop 1911—We expect to plant an acreage, taken with the fields to be ratooned, that will give an output of 16,000 tons of sugar for this crop.

Mill—Contrary to expectations, the evaporators under the strain of day and night grinding, could not do their required work. After various tests, the Honolulu Iron Works made some alterations in the installation of this apparatus late in the season which improved conditions materially. Further changes were made in the evaporators after the crop was off, and I am pleased to report that since starting up this season every part of the factory is working satisfactorily. Some minor defects have been remedied and we are now able to turn out a daily tonnage of sugar well above the designed capacity.

The fire room has been enlarged to allow for additional storage of trash, as we found last season that there was not space enough to allow for the accumulation of sufficient trash to last over Sunday, and some additional fuel had to be burned.

A sack sewing machine and a "Brown's Portable Elevator" for piling sugar in the warehouse, have been added to the equipment of the mill.

Improvements, with the exception of water development, are completed. Water Development—Of the work now contracted for, there yet remains to be done 1164 feet of tunnel, which will cost approximately \$5200. Recent measurements show the total flow of water from all the tunnels to be 9,481,245 gallons in 24 hours.

Insect Pests—We are particularly free from leaf-hopper, and at least two varieties of the leaf-hopper egg parasite are well distributed through the fields. There is also less evidence of the borer this season than last.

Forestry—A forest nursery was established this year to propagate trees for fuel and other plantation purposes; 4478 trees have been set out to date. The nursery is well stocked, and tree planting will be resumed as soon as there is a good rain.

Labor—There has been a good supply of labor since the middle of last grinding season.

Weather—The past season has been the driest experienced here in years. There has been but little rainfall on the fields, and during the first part of the year there was a shortage of water. Since the commencement of the planting season, however, our water supply has been adequate for all needs.

Management—Mr. C. B. Wells retired from the management of the plantation on October 31st of this year, after fifteen years of steady and efficient service in that office, during which time this estate has been developed into one of the finest plantation properties on the Islands.

Recall of count d'Ablans, attache of French consulate, predicted.

California club debate is won by speakers who believe wires should seek economic independence.

## KING CARNIVAL HOLDS GALA COURT

### Joyous Lark Is Closing Event of Floral Parade Day

Carnival night in Honolulu was a great success, and was carried out with a swing and a go that made everything seem to be in order. Pranks that on any other occasion would be resented on the spot were last night passed off with a laugh, the Joker in most cases getting a Roland for his Oliver.

A tremendous crowd gathered around the main city block, and simply swarmed along Hotel, Fort, and King streets. The Young Hotel block was a seething scene of humanity.

The crowds came piling into town from all the suburbs and by 7:30 it was almost impossible to move along the sidewalks. All automobile traffic was suspended and, although the Rapid Transit cars insisted on running for a while, the streets proper were given up to the festive throng.

The first appearance of a quartet of masqueraders was the signal for great cheering and laughter. Three men and one "lady" composed the troupe, and the endeavors of the "lady" to dodge the high wind which insisted on disturbing "her" abbreviated skirts, were most ludicrous. This group entered into the fun of the evening with great gusto, and one of their turns—that of two-stepping to the band music, right around the block—was immense.

The Elks, as usual, did things in great style and made a good impression with their make-up. Lester Petrie was the life of the crowd, and the whole bunch played up well to his lead.

Farmer Hayseed and his wife carried out their part well and raised many a laugh. Clowns, nigger minstrels, Spanish gipsy girls, flower girls, and soldiers mingled with foot-balls, sailors, and hobos. The soldiers must be given a word of praise for the way they lived things up. From the very start they entered into the fun of the evening, and some of their parodies on regulation drill were very comical.

The ladies felt perfectly safe in playing jokes on strangers, for no one could guess at their identity. Many a sedate middle-aged man was bewildered by being tugged this way and that by a charming little gipsy or flower girl. Everything went and all was enjoyed. One man standing on the corner of the Young Hotel was gazing enraptured at a pair of twinkling shoes that were fast disappearing towards the elevator, when he felt his coat tugged. Looking around, he gazed down into a pair of sly eyes, the owner of which whispered: "Oh, you naughty man. Don't you dare to rubber at me when I follow my friend." Indian invitation could not be resisted, and the girl, diving into the crowd, was vainly chased by the man. She, like her friend, caught the elevator and the man missed the bus.

Toward 10 o'clock the crowd in the streets began to thin, many wending their way into the moving-picture shows. The Park Theatre made a ten-strike by having the pictures of the Floral Parade thrown on the screen. Many of them were tinted as to life. This was quick work and the management were complimented highly by everyone.

The dance on the Young roof garden went on till a late hour, and most of the masqueraders drifted in there when the street carnival was over.

## SMALL BOY MEETS WITH ACCIDENT ON WHARF

Robert Lee, a boy of ten years of age, was badly hurt just prior to the sailing of the Mauna Kea for Hawaii. It appears that the lad was perched on top of a pile of lumber and was watching the crowd on the wharf. Suddenly the boy lost his footing and fell—he claims that a Chinese boy shoved him—striking a bit with his leg.

The limb was badly cut just below the knee, and the boy lost a lot of blood before the police patrol wagon came to convey him to the hospital.

The Chinese boy's name could not be learned as he disappeared in the crowd as soon as the accident happened.

## HILONIAN SAILS

The Matson liner Hilonian, Captain Johnson, sailed this morning at 10 o'clock for San Francisco. The passenger list was unusually light. The freight consisted of 3500 cases of canned pines, 3500 bunches of bananas, 1000 bags of coffee and sundry packages of general merchandise.

United States Attorney General Bonaparte urges District Attorney Devlin to get decision on right of appeal from state courts to federal tribunal in naturalization cases.

## Honor and Honesty

The world is growing better. Notwithstanding the near-sighted folks who say that this poor earth is going to the "bow-wows" with crookedness, graft, and general corruption, I believe there is more real, red-blooded honesty in the land today than ever before. Particularly in business, and there's a reason apart from ethics. The "SQUARE-DEAL" pays, and pays every time. HONESTY is still the best policy and HONOR the best business principle.

I am an honest man—and an honorable man if I know what the word means. If I had been a humbug, a fakir, or a deceiver of the unwary (commonly called "suckers") I would have been exposed before now, and if the "MAYFLOWER" mine did not exist and the photos of its Plant and equipment which I have published were not genuine, some one would certainly have brought me up before this with the short, quick turn which I deserved. But the "MAYFLOWER" exists very much—2 miles from Nevada City, California—and every representation and assertion which I have made concerning it is absolutely true to the best of my knowledge and belief; and I am selling the Stock as an honorable man, over the counter of HONESTY, knowing that I will make a firm friend of every man who buys a share because I will make money for him without fail.

Several Honolulu business gentlemen have visited the "MAYFLOWER" and thought well enough of it to become large stockholders, believing, as I profoundly believe, that the Mine will respond to development as handsomely as the best of the rich mines in that section which are at present paying tremendous dividends. Under former ownership there has been about ONE MILLION dollars taken out of the mine, which fact is vouched for by the Nevada County Promotion Committee, who use this statement, together with a picture of the "MAYFLOWER," in their promotional literature today. Write and ask them for their booklet entitled "The Banger Gold County of California."

All the ore which produced the first million was obtained before a depth of 700 feet was reached. From the experience and records of adjoining mines on the same lodes it is well proven that the largest quantities of rich rock are to be found below the 700-foot level and it is for the purpose of mining and milling these richer ore bodies that I am now publicly offering a limited quantity of the company's treasury stock at 25 Cents a share. On March First the price advances to 35 Cents.

If you are at all interested in genuine gold mining and desire to put some money into a proposition of great possibilities, which is practically a sure thing, clean, square, above-board, and honestly conducted by honest and honorable people, "MAYFLOWER" is what you're looking for. It fills the bill. BUY "MAYFLOWER" STOCK. BUY IT NOW!

## COURTESY CAUSE

(Continued from Page 1)

thought it a shame that Kama should thus be slighted. Everybody's bills ought to be printed, else what use in introducing them.

Speaker Holstein stated that the House owed it to the people not to waste the public money, and where there were two or more bills nearly identical there was no use in having both of them printed.

Kalelopu took a hand in the controversy, and gave the Speaker to understand that if he introduced any bill, he expected to have it printed, whether it duplicated somebody else's bill or not.

Rice could see no sense in this: "If I introduce a bill which is a duplicate of one previously introduced by somebody else," he said, "I want it tabled. I don't want money spent to print both of them."

Holstein made the statement that he had purposely made his ruling in order to bring the subject up. He thought it properly a matter for the Rules Committee to deal with. He laid the matter of the two bills before the House and asked for a formal expression as to whether or not Kama's bill should be printed.

Shingle moved that "out of courtesy to Mr. Kama, his bill be printed." Kalelopu moved to reconsider the action of the House passing Kama's bill on its first reading.

Sheldon moved to lay Kama's bill on the table. This carried. Shingle moved that in the future it be the rule of the House that the first of any number of bills introduced be the one to be printed.

Sheldon reminded Shingle that it would be necessary for him to give notice of the introduction of a resolution to that effect.

An immense amount of work was done by the House this morning, prin-

cipally in the way of the introduction of bills and resolutions. If the flood keeps up to its present level a few days more, the Legislature will have bills enough before it to make a sixty-day session look extremely doubtful. Bills on every subject under the sun, bills to amend seemingly every separate section of the Revised Laws, bills to prohibit anything and everything and bills to make it obligatory upon everybody to do all sorts of things are being buried at the defenseless Speaker, until the table of the clerk is piled so high that he can hardly see over it.

The animosity of certain classes and individuals to the sugar planters was illustrated this morning by an amendment offered by Furtado to House Joint Resolution 1, introduced by Shingle. This resolution provides for the appointment of a commission of experts to examine into the matter of private wharves and landings. Furtado wanted to amend by a provision that no person connected with the sugar industry or with any steamship or transportation company should be a member of this commission.

Sheldon thought this amendment a little too pointed, and suggested that the same effect could be produced by substituting the word "disinterested" and leaving out all reference to the planters. He therefore, offered an amendment to the amendment. This was adopted, and the resolution as amended was then, on motion of Shingle, put upon its final passage. It was adopted by a unanimous vote.

An administration measure, following out a recommendation of the Governor's made in his message, was introduced by Moanulua, providing for indeterminate sentences for certain felonies. Persons convicted of murder in the first degree, carnal abuse of a female under ten, arson in the first degree, and contempt of court, are excluded from the provisions of the bill. In all other cases the court shall impose a sentence of indefinite duration, but within the maximum and minimum sentences fixed by law for the particular crime.

Kalelopu had four bills to introduce all of which passed first reading by title. The first is to repeal Section 1018, R. L., relating to certificate of vaccination. Another measure is to do away with the employment in road work of prisoners sentenced to hard labor.

Another bill of Kalelopu's is to amend Section 1033 R. L., relating to foreclosure of unsanitary property for sale. The section as amended will provide a method for the foreclosure of liens entailed by the work of the Board of Health in cleaning up unsanitary premises.

The fourth bill introduced by Kalelopu relates to the insurance of certificates of Hawaiian birth, repealing Act 64, S. L. 1905, but allows prosecutions for violations of that Act to continue. A bill introduced by Nakaleka provides that heads of Territorial departments for the performance of whose duties in case of illness or absence no other provision is made by law may, with the approval of the Governor, designate some other officer in the same department to act temporarily. The person so acting, however, is to receive no additional compensation for the service.

Douthitt had two bills to place before the House. One is intended to amend the laws relating to trial by jury. The other amends the laws relating to the granting of charters of incorporation. The bill makes no special provisions, but hints at further prospective bills, it providing that all charters granted shall be subject to all general laws hereafter to be enacted in regard to corporations.

Walwaile introduced a bill to amend the inheritance tax laws. Two administration bills, relating to laundries, were introduced by Makekau. One amends Act 96, S. L. 1907, and makes the annual license for wash houses, laundries, dye works, etc., \$25. No license shall be issued except upon a certificate of the Board of Health that the location and building conform to the regulations of the Board. The second bill repeals sections 1063 to 1067 R. L. and Act 111 of the Session Laws of the last Legislature.

A bill was introduced providing for district tax courts of appeal, to be constituted by the several district magistrates and deputy sheriffs of each taxation district, together with one disinterested person to be appointed by the Territorial Treasurer. At present there is only one tax court, sitting at Honolulu, and all appeals have to be heard here.

An Act proposed by Rice to amend the existing laws relating to the bonds of public officers provides a form for all such bonds. Nakaleka proposed a resolution requesting the Board of Health forthwith to appoint a Government physician for that portion of Molokai not included in the leper settlement.

Nakaleka introduced a resolution that the sum of \$1000 be inserted in the appropriation bill for a hearse for the leper settlement.

Kalelopu introduced a resolution calling upon the heads of departments with itemized statements of all moneys spent under incidental appropriations. Kalelopu also had a resolution calling for the appropriation of \$10,000 for the construction of a road from Alewa Heights to the Insane Asylum.

It is up to Commissioner Pratt to rise and explain. Several members of the House, it is understood, are after his scalp. Sheldon this morning succeeded in snatching at least one small lock of hair. He introduced a resolution, which was adopted, that the Commissioner report to the House forth-

with the reason why advertisements for the opening of homesteads on the other islands were not published in the newspapers of the counties in which the lands were to be opened, but confined only to the newspapers of Honolulu. It is expected that Sheldon will wear his trophy in a locket—a few hairs being better than no scalp.

Kama introduced two bills repealing a dozen or two sections of the Revised Laws—Sections 2114 to 2120, and 2122 and 2126, 2128, 2129, 2130, 2134, 2136, 2137, 2138, 2140, 2141, 2142, 2143.

In response to the request of the Clerk of the House, made in accordance with a resolution adopted by the House, Auditor Fisher, Registrar Merriam, Archivist Lydecker and President Robinson of the Board of Health, submitted lists of the employees in their several departments, and President Robinson submitted a list of the registrars of vital statistics and of commissioned agents of the Board of Health.

According to the provisions of a bill introduced by Kinney, certificates of Hawaiian birth issued under and by the Department of Commerce and Labor are to become prima facie evidence of the facts therein stated before territorial courts and registration boards.

Second Reading. A big batch of bills was reported back by the Printing Committee, and all passed second reading by title and were referred to various committees, as follows:

H. B. 32, Moanulua, giving circuit judges power to remit the costs and have transcripts of evidence prepared in felony cases—Judiciary Committee.

H. B. 29, Kalelopu, providing for the application of 50 per cent or more of qualified with the difficult points of the purchase price of settlement land Molokai. The Noun leaves today at the construction of roads to open 5 o'clock for Molokai, Maui and Lanai.

H. B. 33, Nakaleka, to make the pay of territorial laborers \$1.50 a day—Miscellaneous Committee.

H. B. 35, Long, relating to inheritance from illegitimate persons—Judiciary Committee.

H. B. 37, Walwaile, to make the taxation, educational and judicial districts conform—Judiciary Committee.

H. B. 38, Fawcett, fixing the merchandise license fees—Finance Committee.

H. B. 41, Huddy, providing for the appointment of clerks, stenographers and interpreters, of the Territorial courts—Judiciary Committee.

H. B. 42, Kama, apportioning the school, property and income taxes, giving the counties 65 per cent of the taxes—Finance Committee.

H. B. 44, Walwaile, amending Act 108, S. L. 1907.

H. B. 45, Moanulua, raising the school age to eight years—Education Committee.

H. B. 48, relating to the manufacture of poi—Health and Police Committee.

## CAPTAIN TRANSFERRED

Pending the overhauling of the steamer W. G. Hall, which was damaged while at Kaula, some transfers have been made among the captains of the Inter-Island line. The Kikaha is now taking the Kaula run, in the Hall's place. She is commanded by Captain Pederson of the Noun, which now takes the Molokai run under the command of Captain Philz. Captain Philz was taken off the Mibahala and placed on the Noun because he is well acquainted with the difficult points of the purchase price of settlement land Molokai. The Noun leaves today at the construction of roads to open 5 o'clock for Molokai, Maui and Lanai.
